2024 - 2025
Córdoba, Argentina.

Konecta Argentina

Technical support through digital channels for staff.

- I provided comprehensive support to residential customers, managing inquiries, resolving technical issues, and offering expert guidance to optimize the use of contracted services.
- I implemented a proactive, customer-centric approach, ensuring positive experiences and maximizing the perceived value of the services.
- I conducted detailed analyses of reported problems, identifying root causes and applying effective solutions through connectivity testing, configuration verification, and technical adjustments to equipment and systems.
- I contributed to increased customer satisfaction through efficient incident resolution and continuous improvement of support processes.
